Dear Sir/Madam:

Applicants are in receipt of the Restriction Requirement mailed on November 1, 2010 (the "Restriction Requirement" or "Office Action"), in the above-referenced patent application, and now submit this response. This response is timely filed.

Applicants respectfully traverse the Restriction Requirement and request reconsideration on the grounds that consideration and examination of the groups specified in the Restriction Requirement should not impose an undue burden. Additionally, significant expense and time would be saved if all pending claims were searched and examined at this time.

However, to comply with the requirement for restriction and ensure a complete response, Applicants elect the invention of Group I, claims 1-3, 161-163 and 169, as set forth in the Restriction Requirement, with traverse.

The Examiner has indicated that withdrawn process claims containing all the limitations of an allowable product claim will be rejoined pursuant to MPEP 821.04. Applicants further respectfully request that rejoinder of all groups be considered by the Examiner following the search.
